

## **Announcement: Your HEARING benefit has been improved!**

The Board of Trustees for the Toledo Electrical Welfare Fund is pleased to announce a benefit improvement for our members needing hearing care.

Effective 2/1/2008, your hearing benefits have been increased and improved in the following ways:

- Your **MAXIMUM** benefit every 36 months has been upgraded to **\$800 per ear**
- You may also get an exam once every 36 months in addition to the per-ear benefit
- You can visit any of our 13 providers with 20 locations in Northwest Ohio and Southeast Michigan
  - To provide you with the most choice in Hearing Care providers, we have discontinued our association with National Ear Care Plan/HearUSA, and are now using the Frontpath network
  - If you need assistance in locating a provider who participates in Frontpath, please refer to the attached provider list, or give us a call at 419-666-4450
- OR, you can seek service at any provider of your choice (though you will most likely get the best deal from one of our network providers) – we provide the same benefits no matter what provider you use

If you have any questions regarding this announcement, you can call us at **419-666-4450** or send us an email to [benefits@electricalfunds.org](mailto:benefits@electricalfunds.org). If you have recently received services at the lower benefit maximum, contact us for your options.

As always, please give us a call if you have any questions or comments regarding your health benefits.
